Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-26 and 29-39, drawn to executing a virtual machine corresponding to a user, classified in class 718, subclass 1.

II. Claims 27-28, drawn to correcting a problem of a virtual machine, classified in class 714, subclass 100.

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as correcting an error of a virtual machine by executing the virtual machine at an administrator's computer system. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
